reports of dividend resumption. New York Central and New Haven and Hartford stocks manifested a reac-tionary tendency, due primarily to the serious disaster at the local terminal of the first named road, The heaviness of United States Steel shares was in marked contrast to the tone of the general list, and by com-mon consent was ascribed to the pre-valing conditions in the steel and iron

demand for Steel sinking fund bonds.
Local monetary conditions are unchanged, while greater ease is shown
at Western reserve centres, and all
fears of a stringency, however temporary, are now set at rest.
The bond market reflected the general improvement shown in that class
of securities. Total sales, par value

Trading was moderate in volume, ofterings being only from liquidating longs. The movement continued large, which caused some short selling by ring scalpers, but the general dipposition on both sides of the market was to reduce commitments. The week in the West continued dry and the forecast promised that fair weather would continue. Texts advices reported rain needed. Market closed very steady at a not decline of \$40 points. ### A Good Point

One of our best citizens and a man of the judgment suggested yesterday that in advertising our trust department we lay more stress upon the following two points, to-wit:

First—The frailty of human life.

First—The frailty of human life.

Second—The perpetulty of a strong institution.
The point he emphasized was that a man may appoint the most cable and reliable friend he has as his executor and trustee or guardian his children, and that friend may die, as frequently occurs, before trust is executed. On the other hand, when a strong Trust Compy is appointed, no such contingency will arise.

This is a vital point and should receive your serious consideration. Acting as Executor, Trustee and Guardian is the chief business of scompany, and its capital of ONE MILLION DOLLARS is a guarantial trusts committed to it will be faithfully handled.

Correspondence and interviews invited.
